

"The Buffalo Niagara region works for my life. This area offers a neighborly feeling unlike that found anywhere else. I enjoy world-class French and Italian dining and pleasant evenings at the Buffalo Philharmonic Orchestra with my wife. Hauptman-Woodward is internationally recognized for its research and there is a strong community of scientific collaborators who have become our lifelong friends."

- Dr. Herbert A. Hauptman
President, Hauptman-Woodward
Medical Research Institute
Nobel Laureate, Chemistry, 1985

In 2005, the Hauptman-Woodward Medical Research Institute completed construction of a new, world-class research center on the Buffalo Niagara Medical Campus. Like many growing life science organizations, they are committed to Western New York. Discover how Buffalo Niagara can work for you by visiting:
