

"Buffalo Niagara brings together the best of many worlds, combining the educational, cultural, and social resources one could expect to find in a much larger city with the community feeling of a much smaller town. It's a community that treasures its past and is planning boldly for the future. That's why my life works here, and that's why I'm proud to be part of the future of this community and its hometown university."

-John B. Simpson
President
University at Buffalo
